

Plan Summer Fun with Data Analysis

It's the first day of summer vacation! And you and your friends can't decide what to do. Luckily, you have the power of **Data Analysis**. Follow the steps below to analyze the data and find a way for everyone to have fun together!

You will need:
a pencil or pen,
scissors, crayons
or colored pencils

1 COLLECT

Collect the data. Cut out each message. →

2 ORGANIZE

Some messages are ANSWERS. Shade or outline these messages in green. 

Some messages are LIMITATIONS. Shade or outline these message in red. 

Some messages are INFORMATION. Shade or outline these messages in blue. 

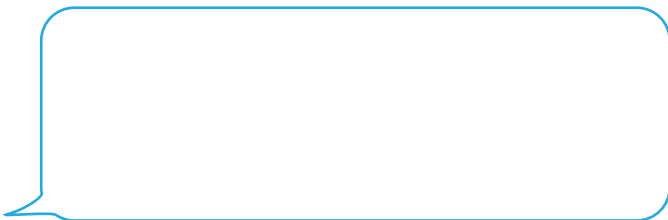

Organize the messages into color groups.

3 CLEAN UP

There are some messages aren't really needed to make this decision. Set those aside.

4 ANALYZE

Take a look at your organized and cleaned-up DATA. What does it tell you? Text your friends with your suggestion!

Summer! 🍷 Let's go 2 Loon Lake and 🏊!

LS238

Check this out! 🍓 strawberryfestival.org

27SMILES

I like 🍓 but I really like 🍊!

LS238

My granddad makes the BEST peach 🍑 . YUMMY!

4EvFriend

My cousins are coming to visit in 2 weeks!! Can't wait.

LS238

Or how about a picnic at the park? But I like 🏊 , too!

27SMILES

Guess what? I fell off my bike yesterday. 🚲 Can't get it wet.

4EvFriend

@LS238 did you forget I'm allergic to strawberries? 🚫🍓

27SMILES

Weather looks 👍! ☀️
